

Seriously. We Think Forward.

Pretentious artsy types would have you believe there is some big mystery to creating stunning productions. That's BS –Blatant Stupidity. **Brilliant post work** is the direct result of forward-thinking talent and technology. **Digital FX** has the first 4k Digital Super 35 mm camera in the gulf coast, and the first and only Hi-Def Discreet Smoke 2K around here. We've always been ten steps ahead. *(And we don't like to brag, but we also have more awards than all our competitors combined – including 18 Emmy Awards.)*

2K POST

Masters of the Digital World.

In the beginning, there was **Digital FX**. And they brought forth into the Gulf Coast area brilliant **post-production talent and technology**. With abundant editing and visual effects suites, a 4k Digital Super 35 mm camera and the only Hi-Def Discreet Smoke 2K suite in the region. And the clients looked upon their work and were pleased with what they saw.
